Group name: 24Q2

Mentor: Egor Pavlovets

Is proud to confirm that student:

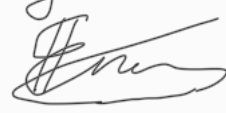

Aksana Topal

has successfully accomplished entire program of the course and successfully completed Diploma project

Online course learning program: Java Playwright course

Playwright fundamentals, selectors, video recording, JUnit extensions, advanced UI tests architecture, 5 intensive homework projects, UI and API PW tests in the Gitlab CI pipeline with Allure reports.

Certificate is issued by: STRIMKA LTD <https://www.strimka.by>

Certificate is signed by: Pavlovets Egor, mentor and STRIMKA LTD CEO

Course name: Java Playwright

Course length: 2 months, 12 hours with mentor

Course program:

1. Class summary: only 5 students got certified from 59 attendees, online class with mentor and individual Homework
2. Fundamentals of Playwright
 - a. Project setup with Playwright using Java and IntelliJ Idea, Maven
 - b. Selectors, Playwright library API, implementation of UI and API test scenarios
 - c. 5 Intensive test automation homeworks, which require at least 40 hours of individual work by student, code review, these homework projects do cover >85% of Playwright methods
 - d. Advanced test project setup with lightweight Page Objects/Page elements approaches
3. Practice usage of test automation libraries and tools in Playwright tests
 - a. JUnit 5: parallel execution, unit tests, lifecycle, tests isolation and management, JUnit ThreadLocal
 - b. Reporting via standard JUnit console output; Reporting via Allure
 - c. Mocking API requests and modifying API responses using Playwright methods and callbacks
 - d. Screenshots, Video recording, HAR logs, Trace information capturing as Allure attachment
 - e. Running PW API, UI tests from CLI, IntelliJ Idea, Gitlab CI pipeline
